## Book Description

*Beginnings* is based on the lives of Greg and Charly that propels the reader on an emotional roller coaster, as events unfold in their lives, including the more absurd and humorous aspects of life. *Beginnings* traverses the singledom lives of Greg and Charly and what brings them together. The global benchmarks that help define them and a people unfold for each decade of their lives.

We all encounter collectively many *beginnings* and *beginnings of the end*. We share them for they are part of what we call the human condition. Greg and Charly experience many *beginnings* and *beginnings of the end*—some predictable, some unexpected. Some *beginnings* are critical moments in our lives as they forever change us for better or worse—they bring us together or tear us apart. They are intimately tied to human relationships as they strengthen or weaken the stuff that binds us.

The *beginnings* that impact on Greg and Charly unfold in the pages to come. Yet, these are not necessarily unique experiences and readers will relate to their own *beginnings* and *beginnings of the end*. However, I am getting ahead of myself. I would like to tell about the circumstances of my world just before my *beginning* and the woman of my life, Charly . . .
